Chowgacha Govt. College 🔗   Chowgacha, Jashore,
                                                                                  Bangladesh

SKILLS

Language (Javascript)

Web development (ExpressJS, ReactJS, NextJS, Ant Design, Redux, Ant Design, TailwindCSS, BootStrap)

Database (MongoDB) | **DevOps** (Git, Github)

PROJECTS

EdTech 🔗
EdTech is a web application that aims to connect students and teachers simply and intuitively.

Features
- RBAC
- Users can view course videos
- Users can submit assignments and take part in quizzes.
- Users can track progress in the dashboard and get an idea of how others are doing by visiting the leaderboard.
- Admin can add course resources and give assignment marks for the submitted ones.

Docapp 🔗
This is a doctor appointment app that allows users to book an appointment with a doctor. It also allows doctors to manage their appointments. It is built with Nodejs, Express, MongoDB, and React. It is a monolithic application. The frontend is built with React and the backend is built with Nodejs and Express. The database used is MongoDB.

Features:
- Users can book an appointment with a doctor.
- Users can view their appointments.
- Users can apply for a doctor's position.
- Doctors can view their appointments.
- Doctors can view their patients.
- Doctors can generate a pdf of their appointments.
- Admin can accept/reject doctors' account requests.

CERTIFICATES

- Learn with Sumit - Think in a Redux way 🔗
